ANDERSON, O. D. (*See* DE GOOIJER, J. G.)
ANDERSON, R. D. (*See* GILMOUR, A. R.)
ANSLEY, C. F. and KOHN, R. On the rate of convergence of the innovation representation of a moving average process 325
ANSLEY, C. F. (*See* KOHN, R.)
BASAWA, I. V., HUGGINS, R. M. and STAUDTE, R. G. Robust tests for time series with an application to first-order autoregressive processes 559
CHAKRAVARTI, I. M. (*See* SUEN, C.-Y.)
CHENG, K. F. Tests for the equality of failure rates 211
COOK, R. D. and TSAI, C.-L. Residuals in nonlinear regression 23
CRÉPEAU, H. (*See* REID, N.)
CRESSIE, N. and SEHEULT, A. Empirical Bayes estimation in sampling inspection 451
CRITCHLEY, F. Influence in principal components analysis 627
CRITCHLEY, F. and FORD, I. Interval estimation in discrimination: The multivariate normal equal covariance case 109
DARROCH, J. N. and MOSIMANN, J. E. Canonical and principal components of shape 241
DARROCH, J. N. and WALLER, J. Additivity and interaction in three-component experiments with mixtures 153
DAVID, H. A. and GHOSH, J. K. The effect of an outlier on L-estimators of location in symmetric distributions 216
DAVIS, L. J. Modification of the empirical logit to reduce bias in simple linear logistic regression 199
DAVIS, L. J. Weighted averages of the observed odds ratios when the number of tables is large 203
DE GOOIJER, J. G. and ANDERSON, O. D. Moments of the sampled space-time autocovariance and autocorrelation function 689
DRAPER, N. R. and FARAGGI, D. Role of the Papadakis estimator in one- and two-dimensional field trials. 223
DUCHARME, G. R., JHUN, M., ROMANO, J. P. and TRUONG, K. N. Bootstrap confidence cones for directional data 637
DUPAČ, V. and HERKENRATH, U. Stochastic approximation with delayed observations 683
EDWARDS, D. and HAVRÁNEK, T. A fast procedure for model search in multidimensional contingency tables 339
EFRON, B. Bootstrap confidence intervals for a class of parametric problems . 45
FARAGGI, D. (*See* DRAPER, N. R.)
FAREWELL, V. T. (*See* MATTHEWS, D. E.)
FISHER, N. I. and SWITZER, P. Chi-plots for assessing dependence 253
FLIGNER, M. A. Pairwise versus joint ranking: Another look at the Kruskal–Wallis statistic 705
FORD, I., TITTERINGTON, D. M. and WU, C. F. J. Inference and sequential design 545
FORD, I. (*See* CRITCHLEY, F.)
FRANKE, J. A Levinson–Durbin recursion for autoregressive-moving average processes 573

GART, J. J. Testing for interaction in multiply-matched case-control studies . 468
GART, J. J. Approximate tests and interval estimation of the common relative risk in the combination of 2×2 tables 673
GART, J. J., PETTIGREW, H. M. and THOMAS, D. G. The effect of bias, variance estimation, skewness and kurtosis of the empirical logit on weighted least squares analyses 179
GHOSH, J. K. (*See* DAVID, H. A.)
GILL, P. S. and SHUKLA, G. K. Efficiency of nearest neighbour balanced block designs for correlated observations 539
GILMOUR, A. R., ANDERSON, R. D. and RAE, A. L. The analysis of binomial data by a generalized linear mixed model 593
GLESER, L. J. A note on G. R. Dolby's unreplicated ultrastructural model . 117
GODAMBE, V. P. The foundations of finite sample estimation in stochastic processes 419
GOMI, A. (*See* SUGIURA, N.)
GREEN, P. J. Linear models for field trials, smoothing and cross-validation . 527
GUNST, R. F. (*See* REILMAN, M. A.)
HALL, P. Correcting segment counts for edge effects when estimating intensity 459
HÄRDLE, W. and MARRON, J. S. Asymptotic nonequivalence of some bandwidth selectors in nonparametric regression 481
HARRIS, P. Testing for variance homogeneity of correlated variables . . 103
HARRIS, P. An asymptotic expansion for the null distribution of the efficient score statistic 653
HAVRÁNEK, T. (*See* EDWARDS, D.)
HAYAKAWA, T. and PURI, M. L. Asymptotic distributions of likelihood ratio criteria for testing latent roots and latent vectors of a covariance matrix under an elliptical population 331
HERKENRATH, U. (*See* DUPAČ, V.)
HERMANS, M. and RASSON, J. P. A new Sobolev test for uniformity on the circle 698
HINKLEY, D. Transformation diagnostics for linear models 487
HUDA, S. (*See* MUKERJEE, R.)
HUGGINS, R. M. (*See* BASAWA, I. V.)
IPINYOMI, R. A. and JOHN, J. A. Nested generalized cyclic row-column designs 403
IRESON, M. J. and RAO, P. V. Interval estimation of slope with right-censored data 601
JENNISON, C. and TURNBULL, B. W. Repeated confidence intervals for the median survival time 619
JEWELL, N. P. Least squares regression with data arising from stratified samples of the dependent variable 11
JHUN, M. (*See* DUCHARME, G. R.)
JOHN, J. A. (*See* IPINYOMI, R. A.)
JOHNSON, W. Influence measures for logistic regression: Another point of view 59
JOHNSON, W. E. (*See* WEI, L. J.)
KAGEYAMA, S. (*See* MUKERJEE, R.)
KEENAN, D. M. A Tukey nonadditivity-type test for time series nonlinearity . 39
KIMBER, A. C. Tests for the exponential, Weibull and Gumbel distributions based on the stabilized probability plot 661

KOHN, R. and ANSLEY, C. F. Efficient estimation and prediction in time series regression models 694
KOHN, R. (*See* ANSLEY, C. F.)
KRZANOWSKI, W. J. (*See* MITCHELL, A. F. S.)
KULATUNGA, D. D. S. (*See* SASABUCHI, S.)
KUNERT, J. Optimal repeated measurements designs for correlated observations and analysis by weighted least squares 375
LÄÄRÄ, E. and MATTHEWS, J. N. S. The equivalence of two models for ordinal data 206
LAKSHMINARAYANAN, M. Y. (*See* REILMAN, M. A.)
LEE, S.-Y. On testing functional constraints in structural equation models . 125
LI, W. K. Distribution of residual autocorrelations in multivariate autoregressive index models 686
LIANG, K.-Y. Odds ratio inference with dependent data 678
LIANG, K.-Y. and SELF, S. G. Tests for homogeneity of odds ratio when the data are sparse 353
LIANG, K.-Y. (*See* ZEGER, S. L.)
LITTLE, R. J. A. and SCHLUCHTER, M. D. Maximum likelihood estimation for mixed continuous and categorical data with missing values . . . 497
LOCKHART, R. A. and MCLAREN, C. G. Asymptotic points for a test of symmetry about a specified median 208
LOCKHART, R. A. and STEPHENS, M. A. Tests of fit for the von Mises distribution 647
LUNDY, M. Applications of the annealing algorithm to combinatorial problems in statistics 191
MAK, T. K. Interpretation and estimation in ranking theory 227
MANTEL, N. Propriety of the Mantel–Haenszel variance for the log rank test . 471
MARRON, J. S. (*See* HÄRDLE, W.)
MATTHEWS, D. E. and FAREWELL, V. T. On a singularity in the likelihood for a change-point hazard rate model 703
MATTHEWS, J. N. S. (*See* LÄÄRÄ, E.)
MCLAREN, C. G. (*See* LOCKHART, R. A.)
MITCHELL, A. F. S. and KRZANOWSKI, W. J. The Mahalanobis distance and elliptic distributions 464
MOSIMANN, J. E. (*See* DARROCH, J. N.)
MUKERJEE, R. and HUDA, S. Minimax second- and third-order designs to estimate the slope of a response surface 173
MUKERJEE, R. and KAGEYAMA, S. On resolvable and affine resolvable variance-balanced designs 165
NYQUIST, H. (*See* PUKKILA, T.)
PATEFIELD, W. M. Information from the maximized likelihood function . . 664
PATEL, H. I. Analysis of incomplete data in a two-period crossover design with reference to clinical trials 411
PETTIGREW, H. M. (*See* GART, J. J.)
PIERCE, D. A. Testing normality in autoregressive models 293
POLLAK, M. and SIEGMUND, D. A diffusion process and its applications to detecting a change in the drift of Brownain motion 267
PORTEOUS, B. T. Improved likelihood ratio statistics for covariance selection models 97

PORTEOUS, B. T. A note on improved likelihood ratio statistics for generalized log linear models 473
PUKKILA, T. and NYQUIST, H. On the frequency domain estimation of the innovation variance of a stationary univariate time series 317
PURI, M. L. (*See* HAYAKAWA, T.)
RAE, A. L. (*See* GILMOUR, A. R.)
RAO, P. V. (*See* IRESON, M. J.)
RASSON, J. P. (*See* HERMANS, M.)
REID, N. and CRÉPEAU, H. Influence functions for proportional hazards regression 1
REILMAN, M. A., GUNST, R. F. and LAKSHMINARAYANAN, M. Y. Structural model estimation with correlated measurement errors 669
ROMANO, J. P. (*See* DUCHARME, G. R.)
ROSNER, G. L. (*See* TSIATIS, A. A.)
SASABUCHI, S. and KULATUNGA, D. D. S. Some approximations for the null distribution of the $\bar{E}^2$ statistic used in order restricted inference . . 476
SCHLUCHTER, M. D. An aligned rank test for censored data from randomized block designs 609
SCHLUCHTER, M. D. (*See* LITTLE, R. J. A.)
SCHMITZ, N. and SWAMY, R. J. R. Remarks on sequential comparison of two Markov chains 485
SEHEULT, A. (*See* CRESSIE, N.)
SELF, S. G. (*See* LIANG, K.-Y.)
SELF, S. G. (*See* ZEGER, S. L.)
SHAPIRO, A. Asymptotic distribution of test statistics in the analysis of moment structures under inequality constraints 133
SHUKLA, G. K. (*See* GILL, P. S.)
SIEGMUND, D. (*See* POLLAK, M.)
SMITH, R. L. Maximum likelihood estimation in a class of nonregular cases . 67
SOLOMON, P. J. Transformations for components of variance and covariance . 233
STAUDTE, R. G. (*See* BASAWA, I. V.)
STEFANSKI, L. A. The effects of measurement error on parameter estimation . 583
STEINBERG, D. M. Model robust response surface designs: Scaling two-level factorials 513
STEPHENS, M. A. (*See* LOCKHART, R. A.)
SUEN, C.-Y. and CHAKRAVARTI, I. M. Balanced factorial designs with two-way elimination of heterogeneity 391
SUGIURA, N. and GOMI, A. Pearson diagrams for truncated normal and truncated Weibull distributions 219
SWAMY, R. J. R. (*See* SCHMITZ, N.)
SWITZER, P. (*See* FISHER, N. I.)
TARONE, R. E. On heterogeneity tests based on efficient scores. 91
